

American T.V. shows

By Marc Walush

The Big Bang Theory

The Big Bang Theory is an American sitcom that centers around 5 people and their daily life. Leonard Hofstadter and Sheldon Cooper are both physicists at Caltech, Penny is a waitress at a cheesecake restaurant. Howard Wolowitz is an Aerospace engineer and Raj Koothrappali is an astrophysicist. These guys are not only smart but they are also huge comic book nerds.

The Office

The office is a Comedy show that first started in the U.K. but was not very successful but later moved to America and became a very successful show. The show is about office workers and how their lives are like when they have a wacky boss. It mostly centers around Michael Scott, Jim Halpert and Dwight Schrute. They went onto 9 seasons

Malcolm in the Middle

This is a comedy show that is about a kid and his family and how horrible they are. His name is malcolm and he is the 3rd brother of 5 brothers. Lois and Hal are the parents, Francis is the oldest then reese, malcolm, dewey, and jamie. Malcolm goes through his everyday life full of bad luck.

Impractical Jokers

This show is a reality prank show about 4 guys Murr, Q, Sal, and Joe, who compete to embarrass each other and if they refuse to do what they are told, they would then get a thumbs down. whoever gets the most thumbs down will lose and will have to be forced to go through a terrible challenge.
